

The MakerBot Replicator+

Reengineered and Rigorously Tested

\$2499

The Replicator+ combines unparalleled performance with superior results and lasting reliability. The Replicator+ prints high-quality concept models easier, 30% faster, and with a 25% bigger build volume than its predecessor. To ensure consistent performance, our new 3D printers and their subsystems were re-engineered and rigorously tested for over 380,000 hours across multiple facilities.

MP07825 | 11.6 L x 7.6 W x 6.5 H in | 100 Microns | Native CAD Support | Smart Extruder+
